

# SOCIAL STUDIES OF INFORMATION SOCIAL

Let's get it on!

Friday, December 6, 2013

12:00PM-2:00PM

Zelazo Center for the Performing Arts  
RM 250  
2419 E. Kenwood Blvd.

Enjoy seasonal cheer and good food while finding your next research partner(s). The first part of the meeting will include informal mingling and enjoying salads, pasta dishes, and desserts catered by Buca di Beppo.

From 12:45 to 1:45 it's time for Academic Speed Dating (bring your business cards). This fun and casual event might just be the catalyst you need to start your next research project, or find colleagues elsewhere in the university. You don't need to be single to mingle.

All members of the UWM community with research interests in the social, historical or cultural aspects of information and information technology are encouraged to participate. This encompasses many facets of digital humanities, software studies, internet research, science and technology studies, and related areas. Graduate students are particularly welcome.

*We look forward to meeting you!*

# SOCIAL STUDIES OF INFORMATION RESEARCH GROUP

## MISSION

The mission of the Social Studies of Information Research Group (SSIRG) is to promote inquiry and pedagogy in the historical, social and cultural dimensions of information at its most fundamental levels, including information institutions, practices, industries, technologies, disciplines, users, policies, and ethics.

## ABOUT THE SOCIAL STUDIES OF INFORMATION RESEARCH GROUP

The Social Studies of Information Research Group was created in 2012 to support the development of teaching and research within SOIS, the iSchool of the University of Wisconsin—Milwaukee. Social Studies of Information is a broad set of historical, social and cultural approaches to the study of all aspects of information, including its related institutions, practices, industries, technologies, disciplines, users, policies, and ethics.

### The group's activities include:

- Hosting regular group meetings and social events
- Organizing an ongoing speaker series bringing scholars from around the world to UWM to discuss research aligned with the Social Studies of Information
- Supporting graduate student members with contributions toward the cost of conference travel and professional society membership
- Coordinating a number of informal reading groups and ad-hoc working groups to address areas of particular interest
